Reeti Sarup

Staff Software Engineer, AI @ Intuit

Bengaluru, India | linkedin.com/in/reeti-sarup | github.com/REETI-SARUP | reetisarup.medium.com | reeti-sarup.github.io

SUMMARY

Staff Software Engineer building AI for enterprise-scale FinTech (GenAI, Agentic AI, RL, full-stack). Launched GenAI report summaries, personalized onboarding, Smart Suggestions, Project Profitability, a self-learning RL feedback loop and large-scale real-time inference systems for QuickBooks Online Advanced and Intuit Enterprise Suite. MS CS (ML), Georgia Tech, 4.0 GPA; Gold Medalist, IGDTUW.

EXPERIENCE

Staff Software Engineer, Mid-Market AI Team · Intuit — Aug 2026 – Present

- Building Mid-Market AI intelligence and an AI-native ERP for enterprise-grade FinTech.
- Best Industry Paper Award, AI-ML Systems 2026 (Italy). Co-Lead, Builder Culture Champions Community; internal AI trainer for the AI Adoption Accelerator.

Senior Software Engineer, AI/ML Builder · Intuit AI Sciences & Smart Products / Mid-Market AI — May 2025 – Aug 2026

- Architected event-driven, explainable AI/ML systems with hybrid batch + real-time inference serving millions of transactions; low-latency ANN retrieval layer.
- Launched models for Project Profitability, cost-allocation predictions, categorization and budget forecasting. Built Data QnA / Deep Think experience; patent filed (BizQuery agentic system).

Senior Software Engineer, Mid-Market AI Mission Team (GBSG) · Intuit — Aug 2023 – May 2025

- Launched GenAI Management Report Summary (~800 beta customers) and Project Profitability with AI Goals & Insights for IES; RAG + Knowledge Graph solution.
- Drove self-learning platform: online RL (multi-armed bandits) scoring, pipelines and Redis for hyper-personalized top-K insights. Core contributor to Mid-Market AI Agents platform and launches.

Software Engineer 2 / Software Engineer 1 · Intuit, QuickBooks Online Advanced — Jul 2019 – Aug 2023

- Shipped Recurring Tasks, Attachments, Data Import, AI anomaly detection (Financial Error Detection) and AI-based onboarding; ~30% page-load (TP99) improvement; Batch Transactions and Workflow Templates (React, TypeScript, GraphQL).

RESEARCH, TALKS & RECOGNITION

- Best Industry Paper Award: “Substitutes, Not Complements: Entity Features vs Fine-Tuned Embeddings for Expense Allocation”, AI-ML Systems 2026. Paper: “BizQuery: Agentic Financial QnA”, AAIML Tokyo 2026 (IEEE). Patent filed (Dec 2025).
- Speaker, Grace Hopper Celebration 2025 (Agentic AI Masterclass) and 2024 (LLM RAG chatbots); GHCI 2024 showcase; WiDS Bangalore emcee. Intuit awards: Star of the Quarter and Superstar (FY22–FY24), 5 Years of Excellence, 100+ Spotlight recognitions.

EDUCATION

Georgia Institute of Technology · MS Computer Science (ML), 4.0/4.0 GPA — 2021 – 2023

IGDTUW, Delhi · B.Tech Information Technology, Vice-Chancellor’s Gold Medal — 2015 – 2019

SKILLS

AI/ML: GenAI, Agentic AI, LLMs, RAG, LangChain, LangGraph, Reinforcement Learning, Knowledge Graphs, Recommenders, Time-series

Engineering: Python, PySpark, Databricks, Kubeflow, Kafka, Redis, AWS, React, TypeScript, GraphQL, Java, C++, System Design
